DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 36-39, 44-47 and 64-74 are rejected under 35 U.S.C. 103(a) as being unpatentable over the prior art which was relied upon in the rejection adjudicated by the Board in the parent application.

The current claims are either identical or contain minor variations to the claims adjudicated by the Board in the parent application, and are, therefore, subject to Res Judicata. The issues of patentability have been decided by the Board and this renders any diverse action by the examiner impossible. The claims remain unpatentable under 35 USC 103 as obvious in view of the cited prior art.

3. Applicants are requested to file a form 1449 with the art previously cited in the parent application(s) to facilitate official citation of that art herein.
